

Nextech Pod™ Workstations Specification Guide

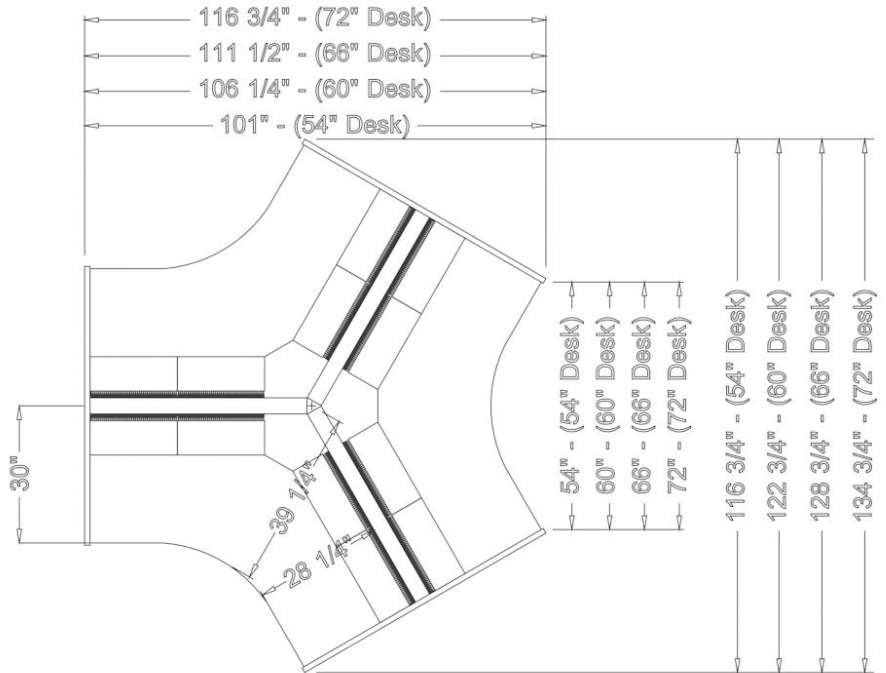

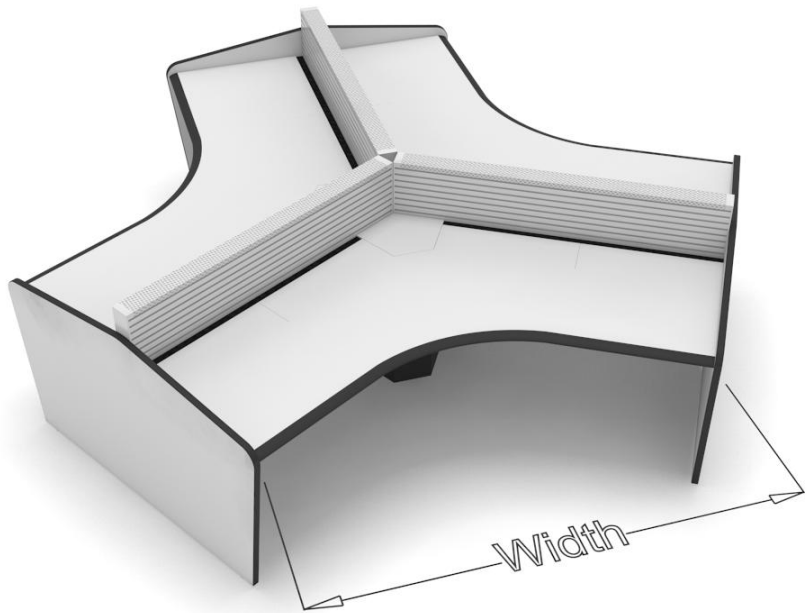

Step 1

Specify Size Of Workstation

Workstations are available in 54", 60", 66", & 72" widths & 30" depths.

All desk worktops are 29 1/2" A.F.F. (Above Finished Floor)

All sizes are customizable, from length to depth and even height.

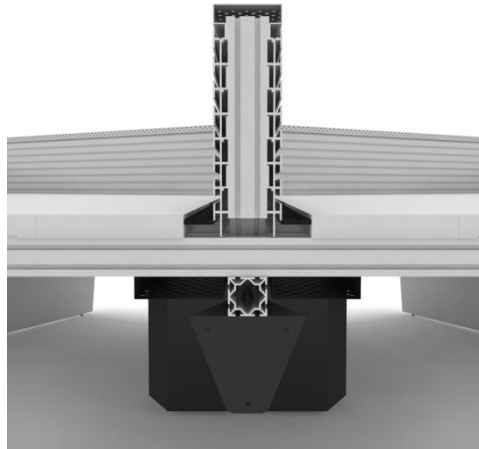

Step 2

Specify Type Of Workstation

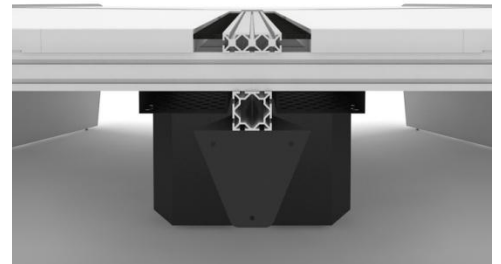

Workstations can be specified with our industry-standard 10" slotwall or our 1" x 3" toolbar.

Custom heights of slotwall are available.

Our slotwall and toolbar can accept all industry standard monitor arms.

Step 5

Additional Options

You can customize almost any of our standard components to create a truly unique workstation solution for your needs.

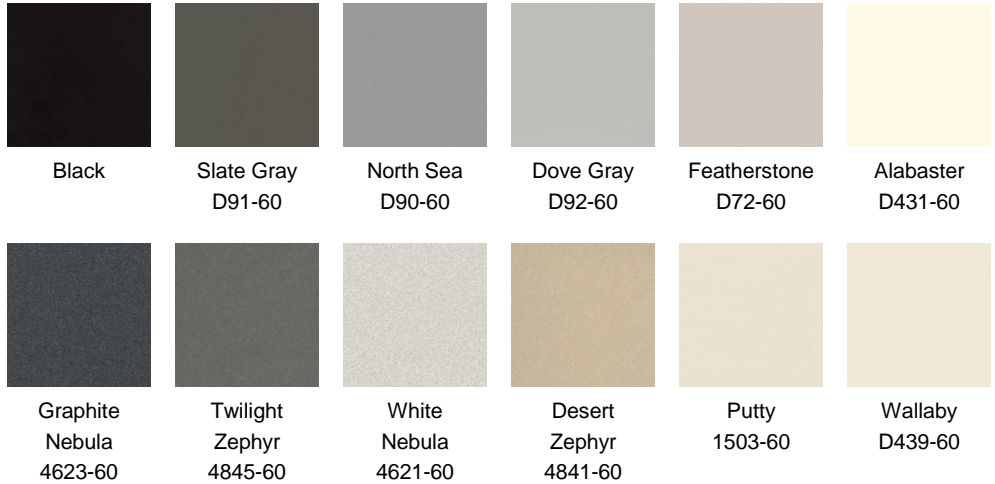

Step 6

Finishing Touches

Almost all vertical and horizontal surfaces can be specified with a laminate or veneer finish.

Wilsonart is our preferred vendor of laminates, with almost all standard and premium laminates available. We also use Formica, Nevamar, Laminart, and Pionite.

Laminate

Veneer

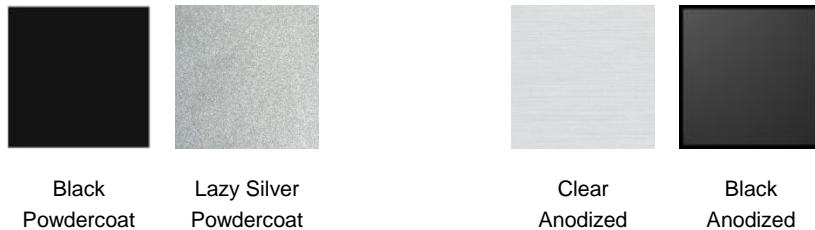

We offer many different woods and custom stains to get a pristine veneer finish. We can also match any architectural or custom finish.

Steel

Steel standard finish is black textured powdercoat.

Aluminum standard finish is clear anodized.

Aluminum

Fabric

We utilize fabric from most manufacturers.
